

SO_{PV}

The image shows a hand-drawn map of a water treatment facility. A prominent orange pennant-shaped area in the upper right contains a white circle with the text 'SO_{PV}'. Below this, a blue channel flows from right to left, passing through a yellow circular marker labeled 'ND'. The channel then turns downwards into a large, irregularly shaped blue area. To the right of this area, a yellow circle is connected to the channel by a dashed line. Further right, a yellow square marker labeled 'GB' is situated near a winding blue channel. The map features several horizontal bands: a red and white striped band above the blue area, a yellow band below it, and another red and white striped band at the bottom. Labels include 'STALL' on the left, 'PAULISÄGE' in the upper right, and 'KLÄRANLAGE ZWIESEL' in the lower right. At the bottom, there are arrows pointing left and a row of green circles. A vertical line, possibly a page fold, runs through the center-right of the map.
